

An Almost Notion

Dedicated to Everyone and Anyone...

Tell it

Tell it to them

They need to know

They need to hear

Even though

They aren't near

Even though they

Play with fear

Emotionality

Is their legacy

The insufferable fates

Have decreed it

But they want

What they want

Physical remnants

Of something

Intangible

Then the torment

Continues

Backwards

But

Forwards

Pumping more

Promises

Into already

Aching heads

Aching hands

Aching hearts

When does

Senility cope

With bribery

Reprobate

Annihilate

Boxed contrivances

Causality re-imagined

Bootleggers

Been

Beggars

Not so bad

To live

In drainage ditches

Bad it isn't

When breathing in

Verbal perfumes

It can be

An acquired

Phase

People cash checks

Spend dollars

Then

Cry for more dollars

Almost regularly

Always childishly

The playground

Was necessary

During childhood

This corporate

Monopoly

Is not

Wide and far

Leaking in jars

Blinking insanity

Wavering

We live in vans

Near rivers

Which quiver

And sway

But never say

It's all right

Contemplate

Dissemination

Pollinate

Our only plight

Pollution

Wronged along

And fought

We overcame

We overcome

Many more

Wars

Scrapes

Bruises and bumps

Worthy is it

Wealthy

Healthy

Everlasting strife
Our clouded cortex
Benign believer
Screaming
Out loud
To its creator
Deceiver
Picking up on
Every excess
Every excuse
Written ever
Split endeavor
A feature film
Promoted stoically
Cynicism
Acknowledges
Notions
Nations
When need be

A balanced book
Takes flight
Heavy looks
All ply
For peelers

For dealers

Grime

Is beauty

The rhyme

Is a proverb

Nihilistic

Visions

Maintain constructions

Against the flow

Remarkable sow

Pink purple

Widowed quotes

Reminding

Romantics

Releasing coasts

Waved notions

All

Metaphors

Taunt legislators

Thinking action

Promotes prevention

While

Permeating

Embracement

Ether

Either creature

Can do

Will do

Myriad machinations

So the sufferer

Longs to dine

Waits to learn

Callous cheers

A sampling of

Iodized leers

Chromium hardware

Glistens in caves

That decade

Misbehaved

Now cannot

Be saved

Involvement

Not quite

Allude

To allusion

Reuse confusion

Perforated performers

Pleasantly

Partake

This self

Conceptualized

Frosting

Without losing

Their

Thick mane

Igneous

Formations ferment

Her eyes

Her soul

Meant to lament

For no one

A grievance

Was born

Like that

Rightly

Appeared

Nightly

She scorns

And

Hath no fury

Notoriety

Publicized portions

In tubs

In buckets

Ice chunks melt

Nice smiles

Disseminate

Door knockers

Floor waxers

Tax collections

On the backs of

Crack addicts

Then

To hear

All nothingness

Embraced by worries

Hunted down

By warriors

Imprisoned brokers

Pay the fine

Guzzle wine

Take their

Day trips

To the Bahamas

Suffocation

Must persist

Graciously granted gravity

Morally obliged to obtain

Enormous mouthfuls

Earnest cartfuls

Disdain

Peculiar predicts

Etiquette engenders

Barbaric modalities

Shamanic rituals

Sleeping like lamas

Meditate not

Working not

The plot thickens

Sadly sickens

Any soup left

Is quickly thrown out

Into whispering

Dumpsters

Old Sagittarius

Kindly kids

Eyes aglow

Miniscule

Battle

Gorgeous sanity

Engorged vanity

Determine

A channel

Which

Spoons are bent

Whimsically

Unmercifully

No procrastination

Soothes sanitation

Smile along

Smile blindly

Contently

Pursue

What everyone else

Pursues

And

Unhappiness

Will

Be

Guaranteed

Fact-less

Identity

Tasting tastes
Ever lying
Distort my own
Perspective
The light
Is much
Too bright
Recreating dimensional
Folly
Inflict
No jurisdiction
Upon their governance
Scruples
Very meaningless
Dead
Maintenance
See through
Drive through
Ridiculousness
Aging anomaly
Ill fortune
Bestowed
Nothing incredible
About
Faking

Emotion

Want quantity

Drown

Quality

Charred chained

Insider's notes

Respectable

Disrespect

Revolting notion

When pity

Anoints us

Undetermined

Racially radical

Radically randomized

Affection

Passionate plea

Made it weep

Almost won

Clearly misunderstood

Misanthropic

The continuation

Is lustful

Am I

No other
No wonder
Blue trees
Etching our
Outline
Of past sketching
Possible plane
Plentiful
Praised
Owning no one
Particular past time
Obligatory
Grave
Just shoveling dirt
Mudding self worth
No goal
In mind
In dire
Straits
Detriment
Diseased delusion
Gone into
Hibernation
Forsaking our nation
Any notion

Of a truthful

Reality

Been strong

Been weak

Weakling

This rider

Flying up

Let the stars

Disintegrate

Me

Cataclysmic muse

Unqualified

Undeserving

Preacher

Teacher

Normalcy

Beckons

But is

Not liberated

With an axe

Nor

A wise

Phrase

Damnably

Dwelling
Energetic
Revelry
Sullen sulk
Wading like
Turkish hens
Laughing
All the same
Mine
Mine fine
Feathered features
Beings
Pushed along
Penalty
Is owed
Blank checks
Make
Blank banks
Birth-less
Heartless
Demand an end
We must
Take up
Arms
Take up

Legs
Throw out our
Voices
Project over
And over
And over
Over the overlords
Elitist defeatist
They need us
To secure their greed
Feed their sins
Be their peasants
Bleed amongst
Many innocent
Souls
Rewards
Were never
Promised
Much less
Procured
Look within
Ask for answers
We know the past
They
Try to dismantle it

Curbed learning

Lie

Earning potential

Livid

Constant aggravations

Mellow your drama

Do without

Concerns

Dismal objects

Breeding pain

We're playing

We're breeding

Only pain

At the source

The source

Is constant

Bold

Propagator

Provincial

Demise

There can be no

Crime

When

Politics confine

Restraint

Dismally

Acting

Out

Every dusted

Print

Plausibly playful

Do not confuse

Temptation like candy

Gesticulation

Wrapped up in undulation

Admiration

Is a crock

Of

Shifty shifts

Letting sirens

Pile drive

Pensive polarity

Plastic crap

Plastic wrap

Life

Is no commodity

Commodities

Are useless

Inanimate

Specks

Almost became immortal

Almost believed

In only physicality

Reprise

I say

Criminalize it

Everywhere

Medicinal what

Do you know

Hypocritical

Oath

Cannot medicate

Every single

Ache

And quake

Prove it

Proving posture

Kindly remind

Your falsity

Is fractionally

Offended

Hear this

Now

Near this

Capital building

Of ethics

I shall

Demolish

Its interior

You shall

Follow

Or swallow

Whole

More mass

Mass quantities

Of their trifling

Truffles

Sigh

Do not mean to

Offend

But

Hate is not as viable

As you would believe

Live in a cave

For forty days

Then shed some light on your own subtlety

Stab a politician

For forty reasons

Then try to accuse

The trial

Of callous control

Tie the ropes

Make the slave

The master of all

Justice doesn't come

In bulk

Angry am I

What reason

Should be mentioned

Today

Worry is in peculiar

Circumstance

Retrograde

Laws

Rules so fickle

Read this

And try

Living again

Beat your denial

Your own selfish

Amusement

A final breath

Makes no difference

To this actuality

Another dreamer

Lives and dies

Matters and un-matters

In this century

Obey millennium

Fornicate atop

Lead the march

Trample marks

Trample cars

Remark

Remarked

Accuse this one

Of brainwashing

Your children

Broken windows

Fixed elections

Boxed insanity

Mocked cruelty

Peaked

Fairly judged

This hope

It never comes

Candidacy candied

Preserve a special spot

For the one

Who will

Who can

Make it all better

He will not appear

In any form or fashion

Because

He is here

Already appeared

Multiple times

In multiple places

Sharing multiple

Antidotes

We did not care

Enough

To care

Say no to technological

Advancement

Stop voting

In slugs

Stop voting

All together

Do not

Propagate

This

Archaic system

It wishes

To enslave us

Further

To diminish

Whatever we take

Comfort in

Absorb this

These words

They are

More important

Than your own

Breath

Listen to this

Grow up

Grow down

Front flip

Into fire

Lit

Lift the lid

Of misappropriation

Revolting past

Revolutionary

Future

Ensues

What is your pleasure

What gives

You reign

Over all

Above all

Illusion

Magician

Magical magistrate

Circumvent

Your populace

Your order

Will break borders

And crowd

The legality

Of civility

Let us be

Let normal
Die
Cry for your
Own cancer
Die
For nothing
Other than
Selfishness
Sweet denial
Salts our hearth
Forgiven unforgiven
Break a part
Of me
Break off
Sanctity

Lost halo
Found
Trouble
Everyone smells
Funk
Filth
We require
Less and less
To

Export

Human feces

Assassinate

Social order

Lifting heads

Changing paradigms

Restore remotely

Stubborn

States

Wrap your ignorance

In foiled follies

Study dysfunction

Calculations

Calculus

Ran from decimals

Decimate dollars

Torching testaments

Apostles

Forgot

To burn fortunes

Changing your lanes

Blaming my contractions

Save

Share

Must the dust

Fuss over trust
Beguiled wisdom
Lone observer
Am not
Tried
Nor true
To insane
Innovation
Unravel
In front of us
Here say
Stay then lay
Forget the destination
Was there
Ever
A time
A calling
Unmoved

Now we rise
Setting aside
Crutches
Mending fences
Compromise
Company

Communication devolves

Symbols

Numbers

Numb ones

Numb members

Understanding

Is not essential

Ventricle

Beatitude

Beatific

Abnormality

Absinthe

Distancing

From the norm

Because

The norm

Was never

The norm

Of any means

By any kind

Notion

Notations

None knowing

True notability

Their materialist

Advantage

Escapes me

Drink champagne

Cork the screw-less

Serve stupidity

Breaking

Your plates

Causing splits

And rifts

What am I

What are we

Forgers

Creators

Destroyers

Surveyors

Were not

Always

A constant

Guard

Choice

Guardian

Germination

Is quite

Perfunctory

Sat back

In puddles

In particular

In parenthesis

Hyphenate

Reality

Security is wrong

To impose

Minutiae

Militant Mary

Carry canes

Scribing names

Circular

Dictation

Secular

Consumption

Must be aggressive

Like Ghandi

Fast

Slow

Promises

Gradual grading

Graded fliers

Torn strips
Of strippers
Fleshing out
Forms
And fears
Subtle waves
So many
Things
To pave
The unpaved
Path
Of righteousness
No one
Is
No one
Behave patiently
Bending negatively
Blending
Angst and cursory
An errand
Erratic
I eradicate
Their long standing
Division
Yes

Communism persists

Dare we
Trouble our intentions
Draw up
A new notion
That equality
Is innate
Within
Us all
Naturally
Eternally
Infinitely
Bound
A nation
Is what we want
A notion
Is what we get
No point
In resolving

So let's admire
Revolution
